

# Potential Legislation for 2016 Session

- **State Employee Opt-Out Enrollment in Deferred Compensation Program (DCP)**
- **Adding additional employers and jobs types to membership in PSERS**
- **Allowing 2008 ERF TRS retirees to return to work as substitute teachers**

# DRS Rules Update

- **Law Enforcement Officers' and Fire Fighters' (LEOFF) Retirement System definitions** – To provide further clarity for the department's interpretation of the terms "supervisory fire fighter" and "fully compensated" within LEOFF.
- **Retirement allowance computations** – When a LEOFF 2, PERS 3, SERS 3 or TRS 3 retirement plan member has at least 20 years of service credit and leaves employment, that member's defined benefit increases by about 3 percent for each year the member delays receiving it. Additional rules will clarify how the department applies this benefit when a member retires from more than one retirement plan.
- **LEOFF Plan 2 Duty Disability** – To clarify how the department administers duty disability benefits, including clarification of the requisite causal connection between the member's employment and disability.
- **Catastrophic disability allowance** – To clarify how the agency will administer adjustments to a member's catastrophic disability allowance.
- **Purchasing additional annuities and service credits** – To define, document and clarify how the agency administers statutes that provide for the purchase of additional annuities and service credits in certain retirement systems.
