# BLACKROCK

**Benchmark** Standard & Pools 500 @ Index **BlackRock Collective Fund**

## Investment Information

### Investment Strategy

This is an index fund that seeks to match the performance of the S&P 500® Index by investing in stocks that make up the index. The S&P 500® Index, considered a large-capitalization benchmark, is comprised of a sample of leading US companies in leading industries, and accounts for more than 75% of the market value of all publicly traded stocks in the US. Investing in large-capitalization stocks is the most efficient way to participate in earnings from large US companies. These stocks have the potential for more stable earnings than that of small- or mid-capitalization stocks, and their prices tend to be less volatile. This fund is intended for long-term investors seeking to capture the earnings and growth potential of large US companies.
