

U.S. Small Stock Fund

BLACKROCK

Benchmark **BlackRock Collective Fund**

Russell 2000® Index

Investment Information

Investment Strategy

This is an index fund that seeks to match the performance of the Russell 2000® Index by investing in a diversified sample of the stocks that make up the index. The Index is comprised of the 2000 smallest companies in the Russell 3000® Index and represents approximately 8% of the total market capitalization of the Russell 3000® Index. The Russell 3000® Index represents 98% of the total US equity market capitalization. Because of their growth potential, investing in small-sized companies can offer higher returns than investing in more established companies. However, with this growth potential comes a higher risk level. This fund is intended for long-term investors seeking capital appreciation from investing in smaller US companies. The risk level for this fund is high, as small-capitalization stocks tend to exhibit more volatility than larger capitalization stocks.

Portfolio Analysis
