

Purchasing an Annuity — LEOFF Plan 2

Washington State Department of Retirement Systems

When you retire, you can supplement your monthly benefit by making a one-time, lump sum payment to purchase an annuity. The annuity must be purchased by rolling over funds from an eligible governmental plan, such as the state's Deferred Compensation Program (DCP). The minimum rollover amount is \$25,000.

Why would I want to purchase an annuity?

Purchasing an annuity increases your monthly retirement benefit for the rest of your life. An "annuity" is an investment on which you receive fixed payments for your lifetime. If you purchase one, you will continue to receive the annuity portion of your monthly benefit payment even if you return to work, or return to membership.

Similar to your monthly benefit payment, the annuity portion may also be passed along to a survivor if you select a survivor option at the time you retire. If you do not select a survivor option, any portion of your annuity remaining at the time of your death will be paid to your designated beneficiary or your estate. If you are eligible for an annual Cost-of-Living Adjustment (COLA) on your retirement benefit, you will receive the same COLA percentage on your purchased annuity.

Can I purchase an annuity if I'm not an active member?

If you are inactive and eligible for retirement, you can buy an annuity when you submit your retirement application.

How is the annuity paid?

The annuity you purchase is a guaranteed lifetime payment that will be paid to you monthly. You will

receive one payment each month from DRS. The payment will include the combined value of your retirement benefit and the purchased annuity amount.

Your annuity will be determined by an actuarial factor that will be based on your retirement date or the date your retirement application is submitted to DRS, whichever is later.

How can I determine the amount my benefit will increase?

An online calculator is available to help you estimate how much purchasing an annuity could increase your monthly pension benefit. To access the calculator, log in to your account on the *DRS website*.

How do I purchase an annuity?

To purchase an annuity, contact DRS for a copy of the *Request to Purchase an Annuity* form. Or if you are applying for retirement online, you may request an annuity purchase through that application.

Once DRS receives the completed form, or your annuity purchase request through the online retirement application, a bill will be sent to you. To pay for the annuity, you must rollover funds totaling at least \$25,000 from an eligible governmental plan, such as DCP.

When will the increase in my benefit take place?

Your annuity will be effective the day after DRS receives your payment or on your retirement date, whichever is later. The two examples below describe how this would work for a retiree who has purchased an annuity that will increase his or her benefit by \$450 per month and will be retiring effective July 1.

Example 1

Payment received prior to retirement date

If DRS receives payment for the annuity purchase prior to July 1, the retiree will receive \$450 in addition to his or her regular retirement benefit amount on his or her first retirement payment, which will arrive on the last working day of July.

Example 2

Payment received after retirement date

If DRS receives payment after July 1, the first payment will be prorated for that month. For example, if DRS receives the payment for the annuity on Sept. 15, the retiree will receive an annuity payment of \$225 with his or her retirement payment on the last day of September. Every month from that point forward, he or she will receive \$450 each month from the annuity.
