PERS Plan 2 summary

PERS Plan 2 is a defined benefit plan. When you meet plan requirements and retire, you are guaranteed a monthly benefit for the rest of your life.

Your monthly benefit will be based on your earned service credit and compensation while a member of PERS Plan 2. This formula will be used to calculate your monthly benefit:

\[ 2\% \times \text{service credit years} \times \text{Average Final Compensation} = \text{monthly benefit} \]

You and your employer each contribute a percentage of your salary or wages to help fund the plan. The Pension Funding Council adopts contribution rates and periodically adjusts them to reflect the overall cost of the plan. The Legislature has the final decision on contribution rates.

You are vested in the plan when you have five years of service credit. Once you are vested, you have earned the right to a future monthly benefit. If you leave your job and withdraw your contributions, however, you give up your right to a benefit.

You are eligible to retire with a full benefit at age 65 if you have at least five years of service credit. Retirement before 65 is considered an early retirement. If you have at least 20 years of service credit and are 55 or older, you can choose to retire early, but your benefit might be reduced. There is less of a reduction if you have 30 or more years of service credit.

If the unexpected happens — disability or death before retirement — a benefit might be available. If you become totally incapacitated and leave your job as a result, you might be eligible for a disability retirement benefit.

If you die before you retire, your spouse, registered domestic partner or minor child, if applicable, could be eligible to receive a benefit based on your years of service credit.

Log in to or sign up for online access to your retirement account. Track your contributions and service credit. Read the latest newsletter. Update your beneficiary information or email address. Use your individual data to estimate your monthly benefit. And when you’re ready, apply for retirement. You can get started at drs.wa.gov/oaa.
How to contact the Department of Retirement Systems

The Washington State Department of Retirement Systems (DRS) administers the Public Employees’ Retirement System and the Deferred Compensation Program (DCP).

Privacy of your information
We are committed to protecting the privacy of your personal account information, including your Social Security number, which we use to track your account and submit required reports to the IRS. We will not disclose your information to anyone unless we are required to do so by law.

If you have insurance coverage through the Washington State Health Care Authority (PEBB or SEBB for example), we could share your information with HCA to better serve you.

Handbook summary
This handbook is not a complete description of your retirement benefit. State retirement laws govern your benefit. If any conflicts exist between the information shown in this handbook and what is contained in current law, the law governs.
How your plan works

Overview
PERS Plan 2 is a 401(a) defined benefit plan. When you retire, you will receive a monthly benefit for the rest of your life that is based on your earned service credit and your Average Final Compensation (AFC). Even though the contributions you make help to fund the plan overall, they do not factor into the monthly benefit you receive.

Membership in PERS Plan 2
In general, you are automatically a member of PERS if you are hired into an eligible position. A PERS-eligible position is normally compensated for at least 70 hours of work per month for at least five months of each year and the employer is one of the following:
- State government (for example, agency, department, board or commission)
- Local government, including a city, town or county
- Public utility district
- Public institution of higher learning
- Housing authority
- Diking, fire, health, irrigation, park, library, port, reclamation, sewer or water district
- Airport

Enrollment in your specific PERS plan (Plan 2 or Plan 3) depends on additional conditions, including your hire date and the plan you chose at the time you first went to work for a DRS-covered employer.

Some employees might satisfy the basic membership criteria but be ineligible for other reasons. If one of the following applies to you, please contact us to determine whether you’re eligible for PERS:
- You are a member of, or have retired from, another public retirement system in Washington state.
- You work for a college or university and belong to that entity’s retirement plan.
- You signed a student waiver while employed by a college or university.
- You work for the city of Seattle, Spokane or Tacoma, or you are an elected or appointed official of one of these cities.

- You provide professional services on a fee, retainer or contract basis and the income you receive from those services is less than 50% of your gross income for work performed in that profession.
- You are enrolled in a state-approved apprenticeship program, employed to earn hours for completing the program, and making contributions to a union-sponsored or Taft-Hartley retirement plan.

Membership in PERS might be optional for some elected or appointed officials; employees of the Legislature; city managers; and chief administrative officers of city, county, port and public utility districts. If you think you might fall into this category, consider visiting the DRS Elected or Governor-Appointed Official page.

Previous membership in another Washington state public service retirement system
Membership in another of Washington’s public service retirement systems (including the city retirement systems of Seattle, Tacoma or Spokane) can affect your:
- Eligibility for PERS Plan 2 membership
- Eligibility to retire
- Benefit calculation

If you have ever been a member in another of Washington’s public service plans, it is important that you contact us to confirm your eligibility and discuss your retirement options.

Contributing to the plan
You are required to contribute a percentage of your salary or wages to your retirement plan. This includes overtime and tax-deferred wages, but it doesn’t include severance pay or cash payments for unused sick or vacation leave. If you have questions about the compensation your employer reports for you, please contact your employer.

Your employer’s contributions are also based on a percentage of your salary or wages. They are not matching funds, and you cannot withdraw them if you leave public service.
When you retire, the monthly benefit you receive will have been funded over time by your contributions, your employer’s contributions and investment earnings. The Pension Funding Council adopts contribution rates and periodically adjusts them to reflect the overall cost of the plan. The Legislature has the final decision on contribution rates.

Federal law limits the amount of compensation you can pay retirement system contributions on and that can be used in your benefit calculation. The amount can be adjusted each year (see the current IRS limit). If you reach the limit in any calendar year, you don’t pay contributions for the remainder of the year and any salary earned over that amount isn’t used in your pension calculation.

Earning service credit
Service credit is based on the number of hours you work, which your employer reports to DRS. When you retire, your service credit is a part of your monthly benefit calculation.

You receive one service credit month for each calendar month in which you are compensated for 90 or more hours of work. No more than one month of service credit can be earned each calendar month, even if more than one employer is reporting hours you work.

You receive one-half of a service credit if you work fewer than 90 hours but at least 70 hours in a calendar month. You receive one-quarter of a service credit if you are compensated for fewer than 70 hours in a calendar month.

If one or both of the following apply to you, you need to know additional service credit information:

• You’re an employee who has previous membership in another Washington state public retirement system:
  » If you have earned service credit in another of the state’s public retirement systems, you might be able to combine your PERS service credit with credit you earned in the other system(s). For more information, read the What Is Dual Membership and How Does It Affect Me? publication.

• You’re an employee of the Washington State School for the Blind, the Center for Childhood Deafness and Hearing Loss, or an institution of higher learning:
  » If you begin working in September in an eligible position and earn compensation during at least nine months of the school year, you can receive 12 service credit months for the school year if you are compensated for at least 810 hours of employment. Six service credit months can be awarded if you start in September and are compensated for at least 630 hours but fewer than 810 hours during the school year.
  » If you earn compensation in fewer than nine months of the school year, you will receive service credit based on the number of hours you are compensated for each month.

You can submit or update your beneficiary information at any time before retirement in your online retirement account. Sign up for or log in to your account. Then select My Account > View/Edit (beside Beneficiary). You have the option of submitting a paper Beneficiary Designation form instead, if you prefer.

If you don’t submit this information, any benefits due will be paid to your surviving spouse or minor child. If you don’t have a surviving spouse or minor child, we will pay your estate.

Be sure to review your beneficiary designation periodically and update it in your online retirement account if you need to make a change. If you marry, divorce or have another significant change in your life, be sure to update your beneficiary designation because these life events might invalidate your previous choices.
State-registered domestic partners, according to RCW 26.60.010, have the same survivor and death benefits as married spouses. Contact the Secretary of State’s Office if you have questions about domestic partnerships.

When you will be vested
Once you have at least five years of service credit in PERS, you have a vested right to a retirement benefit.

If you leave PERS employment before you’re eligible to retire, you can choose to either leave your contributions in the plan, where they will continue to earn interest, or you can withdraw your contributions.

If you decide to withdraw your contributions, you give up your right to a future PERS retirement benefit. See “Returning to public service” on page 8 for more about re-establishing your benefit rights in certain circumstances.

When you will be eligible to retire
You are eligible to retire at age 65 if you have at least five years of service credit.

Options to retire earlier are available (see “Early retirement” on page 11), but your benefit will be reduced to reflect that you will be receiving it over a longer period of time.

• Hired on or before April 30, 2013: To retire early, you must be at least 55 and have 20 or more years of service credit. There is less of a benefit reduction for early retirement if you have 30 or more years of service credit.
• Hired on or after May 1, 2013: To retire early, you must be at least 55 and have 20 or more years of service credit. If you are at least age 55 with 30 or more years of service credit, your benefit reduction will be 5% for each year (prorated monthly) before you turn age 65.

How your monthly benefit will be calculated
Your benefit is determined by your service credit years and compensation. When you retire, this formula will be used to calculate your benefit:

\[
2\% \times \text{service credit years} \times \text{AFC} = \text{monthly benefit}
\]

Average Final Compensation (AFC) is the average of your 60 consecutive highest paid service credit months. Any severance pay or lump sum payment for unused sick leave or vacation/annual leave is not included.

Example
Using the formula

If you retire at age 65 with 32 years of service credit and a monthly Average Final Compensation of $5,000, your monthly benefit is $3,200, calculated as follows:

\[
2\% \times 32 \times $5,000 = $3,200
\]

Planning for retirement
Even though retirement might seem far away, planning for it now is one of the best things you can do for yourself and your family. Your monthly benefit will be an important part of your income in retirement, but it is just a portion of what you will need.

How do you begin developing your personal plan for retirement? First, estimate how much money you will need. That can vary based on factors that include:

• The lifestyle you’ll want to lead when you retire
• Your health
• Whether you’ll carry any debt into retirement
• Your life expectancy

Next, estimate how much money you will receive from all sources, such as Social Security, personal savings and other employer pension plans. When you compare this number with what you think you will need, you can adjust your savings plan accordingly.
Many tools can help you with your planning. Here are some on the DRS website:

- **Live webinars** are available to attend online. Topics include Plan 2, Plan 3, plan choice, the Deferred Compensation Program (DCP), distributions from Plan 3, investment basics and Social Security basics.
- Retirement seminars are available to attend in person. You can also watch seminars when it’s convenient for you on the DRS Retirement Seminars webpage. Topics include Plan 1, Plan 2, Plan 3, DCP, Social Security and health care options, and the Voluntary Employees’ Beneficiary Association (VEBA).
- The benefit estimator within your online account can calculate your monthly benefit based on a variety of scenarios (for example, different retirement dates) using your actual account data. If you haven’t already registered for this service, it takes just a few minutes to do so.
- The **Deferred Compensation Program (DCP)** is a special type of savings program that helps you invest for the retirement lifestyle you want to achieve. Unlike traditional savings accounts, DCP is tax-deferred. That means it lowers your taxable income while you are working and it delays payments of income on your investments until you withdraw your funds. Contributions are automatically deducted from your paycheck, so saving is easy. You can start with as little as $30 per month. You can also let your contributions grow with percentage deductions.

Be sure to revisit your plan periodically and adjust for any changes in your professional and personal life.

---

### Milestones/life changes

#### Becoming vested

When you have at least five years of service credit in PERS Plan 2, you have a **vested** right to a retirement benefit. This is a significant milestone in your public service career.

#### Option to transfer to PERS Plan 3

If you became a member of PERS Plan 2 before Plan 3 began (that is, March 1, 2002, for state and higher education employees and Sept. 1, 2002, for local government employees), you have an opportunity each January, while you are employed, to transfer to Plan 3. Plan 3 has two parts — a **defined benefit** and a **defined contribution** — and is referred to as a “hybrid plan.”

If you decide to transfer, your Plan 2 contributions plus any interest they have earned will be moved to a Plan 3 defined contribution account. If you transfer to Plan 3, you cannot return to Plan 2.

Making a retirement plan choice is an individual decision. Your decision should be based on your personal situation. For more information, visit the Plan Choice section or see the Plan 3 website.

#### Leaving public service

If you leave PERS employment, you can choose to either leave your contributions in the plan until you’re eligible to retire or withdraw them. The IRS requires that you begin taking payment of your monthly benefit no later than age 70½, unless you are still employed.

Leaving PERS-covered employment is the only circumstance in which you can withdraw your contributions. Doing so cancels any rights and benefit you have accrued in PERS. You can restore your contributions and re-establish...
your benefit only in certain circumstances (see
the next section).

There are tax implications to withdrawing
your contributions, so you might want to
contact the IRS or a tax advisor before making
a decision. The Withdrawal of Retirement
Contributions publication offers more detailed
information.

Be sure to keep us up to date on any changes
to your name, address or beneficiary. It’s
important that you keep your beneficiary
designation current, because a divorce, marriage
or other circumstance might invalidate it.

Returning to public service

If you leave your position, withdraw your
contributions and later return to PERS work,
you might be able to restore your previous
service credit. To do so, you must repay the
total amount of the contributions you withdrew
plus interest within five years of returning to
work or before you retire, whichever comes
first. Contact us to find out that amount.

A dual member, or someone who belongs
to more than one retirement system, might
be able to restore service credit earned in a
retirement system other than PERS. Each time
you become a dual member, you’ll have 24
months to restore service credit earned in a
previous retirement system.

It might still be possible to purchase service
credit after the deadline has passed. However,
the cost in that case is considerably higher. To
explore financial projections and comparisons
of your estimated retirement benefits, try using
our Plan Choice Calculator.

Find out more at Plan 2 Recovery of Withdrawn
or Optional Service Credit for PERS, SERS,
TRS, PSERS and LEOFF. You might find helpful
information in What Is Dual Membership and
How Does It Affect Me? as well.

Marriage or divorce

Marrying, divorcing or separating can affect
your monthly benefit.

Court-ordered property division

A court-ordered property division could affect
your benefit. As long as the order complies
with applicable laws, we will pay a monthly
benefit to your ex-spouse according to
the division. The DRS publication How Can
a Property Division Affect My Retirement
Account? contains detailed information.

Updating your beneficiary

The beneficiary information you give DRS
tells us the person(s) you want to receive your
remaining benefit, if any, after your death.
You can submit or update your beneficiary
information at any time before retirement in
your online retirement account. Sign up for
or log in to your account. Then select My
Account > View/Edit (beside Beneficiary).
You have the option of submitting a paper
Beneficiary Designation form instead, if you
prefer.

If you marry or divorce before you retire, you
need to update your beneficiary information,
even if your beneficiary remains the same. It’s
very important that you keep your beneficiary
designation up to date.

If the unexpected happens

Temporary leave from your job

You might need to take a temporary leave
from your job because of:
• Military service
• An authorized leave of absence
• A temporary disability

If so, you might be able to obtain service
credit for work time missed while you were on
leave.

Service credit for military service

If you left your position for uniformed military
service, you might be eligible to receive service
credit for that period of military service.
To qualify, you must:
- Apply for a position with the same PERS employer within 90 days of receiving an honorable discharge
- Pay the contributions within five years of returning to employment or before you retire, whichever comes first; contributions might not be required if your military service occurred during certain periods of war

If you become totally incapacitated as a result of serving in the United States military, you (or your surviving spouse or children, in the case of your death) can apply for military service credit without your return to employment.

Read our Military Service Credit publication for more information.

**Service credit for an unpaid, authorized leave of absence**
You could be able to earn up to two years of service credit for an unpaid leave of absence that your employer authorized. To do so, you must:
- Return to work in a PERS-covered position
- Pay your contributions with interest as well as your employer’s contributions with interest for the period of time you were on leave

You must complete payment within five years of returning to employment or before you retire, whichever comes first. Find out more at Recovery of Withdrawn or Optional Service Credit for PERS, SERS, TRS, PSERS and LEOFF.

**Disability before retirement**
In some cases, you can obtain service credit for work time missed while you were on leave for a temporary disability.

If you become totally incapacitated and leave your job as a result, you might be eligible for a disability retirement benefit.

To find out more, visit PERS/SERS/TRS Plans 2 and 3 Disability Benefits or call us for information.

**Death before retirement**
If you have fewer than 10 years of service credit at the time of your death, your accumulated contributions plus interest will be paid to your beneficiary.

If you have 10 or more years of service credit at the time of your death, your spouse (or the guardian of your minor children, if you aren’t married) can choose to receive either a lump sum payment of your contributions plus interest or a monthly benefit. If you do not have a surviving spouse or minor children, your contributions plus interest will be paid to your beneficiary or estate.

The monthly benefit will be calculated as if you had retired and chosen a 100% survivor benefit (see Option 2 on page 13 in the “Ready to retire” section of this handbook).

If your surviving spouse dies while receiving the benefit, your minor children will receive the benefit that was being paid to your surviving spouse. The benefit will be divided equally among the children, and each will receive their portion until they turn 18.

**Death as a result of an injury or occupational disease sustained during employment**
If the Department of Labor & Industries determines that your death was the result of injuries sustained during the course of employment or an occupational disease or infection that arose from your employment, your beneficiary will be entitled to a one-time, duty-related death benefit.
Approaching retirement

Retirement planning checkup

Consider taking time to check in on your retirement planning. Have you analyzed how much you will need and how much you will have in retirement? Has anything in your plan changed? Have you joined the state’s Deferred Compensation Program (DCP) or another supplemental savings program?

Things to consider:

- Identify your retirement lifestyle goals. Will you want to travel the world or stay close to home? Different lifestyle choices can mean different financial goals.
- Take care of your health. The cost of medical care can be one of the largest expenses you incur in retirement. Getting regular checkups now and maintaining a healthy lifestyle can have an impact on what those costs will be when you retire.
- Pay down debt. Debt lessens the money you have available to save. Paying off debt while you’re still generating a paycheck will affect how much you have to save and give you greater flexibility in retirement.
- Sign up for DCP or another similar savings vehicle. (It’s never too late to get started.) If you’re already saving with DCP or another plan, consider increasing your contribution amount. Making even a small increase can make a big difference over the long run. Use the calculator on the DCP website to see the impact different contribution amounts could have. Here’s an important tip: If you’re age 50 or older, the IRS allows a higher contribution limit, which enables you to save even more in your DCP account if you choose.

These questions are key as you approach retirement.

- What will your monthly benefit be?
- How will your benefit change if you work past age 65 or you decide to retire early?
- Will you want to increase your benefit by purchasing additional service credit?
- What other income will you have available to you in retirement?

This section can help you find the answers. If you haven’t already signed up for an online account, consider doing so. With this account, you can calculate your benefit using different scenarios and your individual account information.

Service retirement

You are eligible to retire when you are 65 and have at least five service credit years. This formula will be used to calculate your monthly benefit:

\[ 2\% \times \text{service credit years} \times \text{AFC} = \text{monthly benefit} \]

AFC is the average of your 60 consecutive highest paid service credit months. Any severance pay or lump sum payment for unused sick leave or vacation/annual leave is not included.

Example

**Service retirement**

If you retire at age 65 with 20 years of service credit and a monthly Average Final Compensation of $3,700, your monthly benefit is $1,480 each month, calculated as:

\[ 2\% \times 20 \times 3,700 = 1,480 \]

If your monthly benefit is less than $50, you can choose to take a lump sum retirement benefit. (It’s likely that only a member who retires early on disability or as a dual member would receive this type of payment.) If you receive a lump sum payment, you are considered retired from PERS.
Early retirement

Any retirement before age 65 is an early retirement. If you retire early, your benefit will be reduced to reflect that you will be receiving it over a longer period of time. Your benefit depends on how much service credit you have earned, your age and the Early Retirement Factors (ERFs) applied.

* The 20-year ERFs are subject to change based on State Actuary figures. To review the factors in detail, visit the complete table online.

Here are the early-retirement options:
- Hired on or before May 1, 2013: To retire early, you must be at least 55 and have 20 or more years of service credit. If you are age 55 with 30 or more years of service credit, your benefit reduction will be 5% for each year (prorated monthly) before you turn age 65.

The Thinking About Retiring Early? publication offers in-depth information on what you’ll need to know if you are thinking about retiring early.

Retiring as a dual member

If you are a member of more than one Washington state retirement system, you are a dual member. You can combine service credit earned in all dual member systems to become eligible for retirement.

In most cases, your monthly benefit will be based on the highest base salary you earned, regardless of which system you earned it in.

Base salary includes your wages and overtime and can include other cash payments if those payments are included as base salary in all the retirement systems you are retiring from.
Example

Dual member

If you retire at age 65 with three years of service credit from PERS Plan 2 and four from the Teachers’ Retirement System (TRS) Plan 2, you are a dual member. Without dual membership, your service would not be eligible for a monthly benefit from either system. With dual membership, your service credit is combined, giving you enough to retire. Your benefit from each system is calculated with service from that system alone. This is how your benefit is calculated:

\[
2\% \times 3 \text{ (PERS service credit years)} \times \text{Average Final Compensation (AFC)} = \text{PERS benefit}
\]

\[
2\% \times 4 \text{ (TRS service credit years)} \times \text{AFC} = \text{TRS benefit}
\]

\[
\text{PERS benefit} + \text{TRS benefit} = \text{total monthly benefit}
\]

For more information, read the publication What Is Dual Membership and How Does It Affect Me?

Annuity options

An annuity is a guaranteed income plan you purchase. When retiring, PERS Plan 2 members have two available annuities.

PERS Plan annuity: With this annuity, the retirement benefit increase you receive is based on the dollar amount you choose to purchase. While there is no maximum amount, a minimum purchase of $5,000 is required. The funds to purchase this annuity must come from an eligible governmental plan, such as your DCP savings. Estimate the monthly retirement income increase through the “Purchase an Annuity” calculator in your online account.

Service credit annuity: This annuity allows you to add up to 60 months to your service in the final pension calculation. Purchased service credit does not actually increase the number of years you’ve worked and won’t help you qualify for retirement, but it can make a big impact when it comes to your pension benefit! Estimate the monthly retirement income increase as well as the annuity cost through the “Purchasing Service” calculator in your online account.

So how do you fund these annuities? Many members use their DCP savings account. For more information about these annuities, see DRS annuities.

Estimating your benefit

If you are within five years of retirement, we encourage you to review your online account and use the online benefit estimator to determine how much your benefit might be. You can use this estimator at any point in your career.

If you expect to retire within the next year, contact us through your online account or call to request a written estimate of your benefit.
Ready to retire

Applying for retirement online

To apply online, go to your online account and either sign up for or log in to your account.

The online retirement application will display only what you need based on your retirement system, plan and retirement eligibility rules. Follow the step-by-step instructions and electronically submit the application to us when you’re ready.

Applying for retirement on paper

Request a retirement application from us. Submit the completed application with all required signatures and documentation, including proof of age for your survivor if you choose a Survivor Option (see Options 2, 3 and 4 below).

If you’re purchasing service credit, complete and turn in your Request to Purchase Retirement Service Credit form with your application.

Your benefit options

When you apply for retirement, you will choose one of the four benefit options shown below. Once you retire, you can change your option in only limited, specific circumstances, so select carefully.

Option 1
Single Life
This option pays the highest monthly amount of the four choices, but it is for your lifetime only. No one will receive an ongoing benefit after you die. If you die before the benefit you have received equals your contributions plus interest (as of the date of your retirement), the difference will be paid in a lump sum to your designated beneficiary.

Option 2
Joint and 100% survivor
Your monthly benefit under this option is less than the Single Life Option. But after your death, your survivor will receive the same benefit you were receiving for their lifetime.

Option 3
Joint and 50% survivor
This option applies a smaller reduction to your monthly benefit than Option 2. After your death, your survivor will receive half the benefit you were receiving for their lifetime.

Option 4
Joint and 66.67% survivor
This option applies a smaller reduction to your benefit than Option 2 and a larger reduction than Option 3. After your death, your survivor will receive 66.67% (or roughly two-thirds) of the benefit you were receiving for their lifetime.

You must get consent in certain circumstances
If you are married, legally separated or a registered domestic partner and do not leave a survivor option for your spouse/partner, the law requires their consent to your choice. If their notarized consent is not provided on your retirement application, your benefit will be calculated at Option 3 and they will be the designated survivor.

Health insurance coverage

Ask your employer if you will be eligible for health insurance coverage through the Public Employees Benefits Board (PEBB) once you retire. You can also call the Health Care Authority at 800-200-1004 or visit www.hca.wa.gov.

If you qualify for continuing coverage, you must meet strict timelines to apply or request a deferral. If you are not entitled to PEBB coverage, you might be eligible for health insurance your employer provides. For more information, consult your employer.
Federal benefit limit

When you retire, your benefit could be limited if it exceeds the federally allowed amount. It can be adjusted annually for inflation (see the current IRS limits). Members hired before Jan. 1, 1990, have different limits. When we process your benefit estimate, we will notify you if your benefit exceeds the limit.

Few retirement **system** members should be impacted by this limit. If you think it could impact you, please call us for additional information.

Federal tax on your monthly benefit

Most, if not all, of your benefit will be subject to federal income tax. The only exception will be any portion that was taxed before it was contributed. When you retire, we will let you know if any portion of your contributions has already been taxed.

Since most public employers deduct contributions before taxes, it’s likely your entire retirement benefit will be taxable.

At retirement, you must complete and submit a federal **W-4P form** to let us know how much of your benefit should be withheld for taxes. If you don’t, IRS rules require withholding as if you are married and claiming three exemptions. You can adjust your withholding amount at any time during retirement by completing a new **W-4P form**.

For each tax year you receive a retirement benefit, we will provide you with a 1099-R form to use in preparing your tax return (see the **1099-R guide**). These forms are usually mailed at the end of January for the previous year. The information is also available through your **online account**.

It is your responsibility to declare the proper amount of taxable income on your income tax return.

Legal actions

In general, your monthly benefit is not subject to assignment or attachment. However, it could be subject to court and administrative orders issued under federal law or for spousal maintenance and child support.

You can find more information in the publication **Can Legal Action Affect My Retirement Account?**

When and how your benefit will be paid

After you retire, your retirement benefit will be paid at the end of each month and directly deposited in your financial institution account. You must enter your banking information in your **online retirement account** or complete the **Direct Deposit Authorization form** as part of your retirement application.

If you need to change your financial institution once you’ve started your retirement, just update your information in your online account or send us a new authorization form. In rare cases, if you are unable to receive payment by direct deposit, payment will be mailed at the end of each month.
Once you retire

Cost-of-Living Adjustment (COLA)
On July 1 of every year following your first full year of retirement, your monthly benefit will be adjusted to a maximum of 3% per year, as determined by the Consumer Price Index.

Working after retirement
If you return to public service in Washington state after you retire, your benefit could be affected, depending on the position and number of hours you work.

In certain circumstances, you might be required to become a member of, and pay contributions to, another retirement system.

You might be able to work limited hours with no impact to your benefit. If you retire early under provisions put in place in 2008 (see “Early retirement” on page 11), your benefit could be stopped if you return to public service.

If you think you might be returning to work after retirement, call us to see if your benefit will be affected. Consider reviewing the Thinking About Working After Retirement? publication.

Benefit overpayments or underpayments
If you ever receive an overpayment of your monthly benefit, you are required to repay it.

If we discover your benefit has been underpaid, we will correct the error and award you a retroactive payment, if applicable.

Changing a benefit option or survivor after you retire
Once you retire, you may change your benefit option or survivor in the following circumstances only:

- If you designate someone other than your spouse to receive your survivor benefit, you can change to an Option 1 (no survivor) benefit at any time after retirement.
- If you choose a Survivor Option (Option 2, 3 or 4) and your designated survivor dies before you do, your monthly benefit can be adjusted to the higher Option 1 payment level. Be sure to notify us to begin this change.
- If you marry or remarry after retirement and remain married for at least one year, you might be able to change your benefit option and provide a survivor benefit for your new spouse. To qualify for this opportunity, you must request the change during your second year of marriage. Contact us for estimates on how this will affect your monthly benefit. Also, be aware that this opportunity might not be available if a court-ordered property division has impacted your benefit.
- If you re-enter PERS membership and earn 24 months of uninterrupted service credit, you can select a different Survivor Option when you retire again.
Glossary of terms

**Average Final Compensation (AFC):** The monthly average of your 60 consecutive highest paid service credit months. Your Average Final Compensation is used in determining your monthly benefit.

**Beneficiary:** The person(s), estate, organization or trust you have designated to receive any benefit payable upon your death. Your beneficiary must have a federal tax identification number or a Social Security number.

**Cost-of-Living Adjustment (COLA):** On July 1 of every year following your first full year of retirement, your monthly benefit will be adjusted to reflect the percentage change in the Consumer Price Index — to a maximum of 3% per year.

**Defined benefit:** A retirement plan in which your benefit is based on a formula rather than an account balance. The formula provides a monthly benefit based on your years of service and your Average Final Compensation.

**Defined contribution** (a component of Plan 3 only; some members of Plan 2 have the option to transfer to Plan 3): A benefit that consists solely of the money you contribute and any investment gains, losses or expenses applied to your account.

**Domestic partner:** In a registered domestic partnership, both individuals have met the state’s legal requirements and registered their partnership with the Secretary of State’s Office or another jurisdiction. Contact the Secretary of State’s Office if you have questions about the requirements. Registered domestic partners have the same survivor and death benefits as married spouses. However, differences could occur in how taxes are handled at the federal level.

**Dual member:** You are a dual member if you have established membership in more than one Washington state retirement system, including First Class City retirement systems for Seattle, Spokane and Tacoma, but excluding Plan 1 of the Law Enforcement Officers’ and Fire Fighters’ Retirement System.

**Early retirement:** Retiring before age 65.

**Membership status:** The status of your retirement membership. This can be:
- Active, which means you are currently employed in a position covered by one of the state retirement systems
- Inactive, which means you no longer are actively contributing to the state retirement system and have not withdrawn your contributions after leaving employment (which might leave you eligible to receive a benefit once you reach retirement age)
- Withdrawn, which means you were employed in a position covered by one of the state retirement systems and you withdrew your contributions after leaving employment

**Reduced benefit:** A benefit that has been decreased by a factor provided by the Office of the State Actuary. A benefit is reduced in two situations: when you retire early or you retire and select a Survivor Option (which pays a benefit to your survivor after your death).

**Service credit:** The credit you receive each month for working in a position covered by one of the state retirement systems. Service credit is used to determine your eligibility for retirement and your benefit amount.

**Survivor:** The individual you choose — when picking Option 2, 3 or 4 at retirement — to receive benefit payments after your death.

**System/plan:** The retirement system and plan in which you are a member.

**Vested:** You have earned the right to receive a retirement benefit once you reach an eligible age.
