Re: LEOFF Plan 2 Board Action – Contribution Rate Adoption 2021-2023 and 2023-2025

Dear Ms. Guerin:

This letter is to inform you that the LEOFF Plan 2 Retirement Board adopted new contribution rates for LEOFF Plan 2 at the July 22, 2020 Board meeting. The contribution rates were adopted for the 2021-2023 and 2023-2025 biennia.

Effective July 1, 2021, through June 30, 2025, the rates will be 8.53% for members, 5.12% for employers and 3.41% for the State. These rates are subject to further Board action. These rates reflect the expected long-term cost of the plan as calculated by the Office of the State Actuary in the 2019 LEOFF Actuarial Valuation Report.

Please note that the Board had previously adopted slightly higher rates for the 2021-2023 biennium based on the results of the 2017 LEOFF Actuarial Valuation Report. The Board adjusted these rates to reflect the results of the new actuarial valuation.

Please let me know if there are any questions about the Board's actions.

Sincerely,

Steve Nelsen  
Executive Director
