## Introduction

The schedules and accompanying information presented in this document are provided to assist employers participating in the state of Washington's multiple-employer, cost-sharing retirement plans with preparing and presenting financial information in compliance with the requirements of the Governmental Accounting Standards Board (GASB).

The requirements do not affect the amount employers pay to provide retirement benefits, only how costs are accounted for and reported in financial statements. The GASB believes these requirements enhance the accountability and transparency of governments that provide their employees with retirement benefits.

Additional information about the standards and tools GASB has provided can be found in the DRS employer handbook, <https://www.drs.wa.gov/employer>. Additional information about the retirement plans can be found in the Department of Retirement Systems' 2024 Annual Comprehensive Financial Report located on the DRS website, [www.drs.wa.gov](http://www.drs.wa.gov).

As always, detailed accounting instructions and assistance for employers should come from the State Auditor's Office (for local governments), the Office of Financial Management (for state agencies) or the Office of the Superintendent of Public Instruction (for school districts).

### Report on the Audit of the Schedules

#### Opinions

We have audited the accompanying schedules of employer and non-employer allocations of the Washington State Department of Retirement Systems' (DRS) Public Employees' Retirement System (PERS) Plan 1 and Plan 2/3, School Employees' Retirement System (SERS) Plan 2/3, Public Safety Employees' Retirement System (PSERS) Plan 2, Teachers' Retirement System (TRS) Plan 1 and Plan 2/3, Law Enforcement Officers' and Fire Fighters' Retirement System (LEOFF) Plan 1 and Plan 2 (the DRS Plans), as of and for the year ended June 30, 2024, and the related notes.

We have also audited the total for each of the DRS Plans of the columns titled ending net pension liability (asset), total deferred outflows of resources excluding employer-specific amounts, total deferred inflows of resources excluding employer-specific amounts, and pension expense (income) as of and for the year ended June 30, 2024 (specified column totals), included in the accompanying schedules of collective pension amounts of the DRS Plans, and the related notes.

In our opinion, the schedules referred to above present fairly, in all material respects, the employer and non-employer allocations and the net pension liability (asset), total deferred outflows of resources excluding employer-specific amounts, total deferred inflows of resources excluding employer-specific amounts, and pension expense (income) for each of the DRS Plans as of June 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of DRS and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Schedules

Management is responsible for the preparation and fair presentation of the schedules in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibilities for the Audit of the Schedules

Our objectives are to obtain reasonable assurance about whether the schedules of employer and non-employer allocations and specified column totals included in the schedules of collective pension amounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the schedules of employer and non-employer allocations and specified column totals included in the schedules of collective pension amounts.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the schedules of employer and non-employer allocations and specified column totals included in the schedules of collective pension amounts, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the DRS' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the schedules of employer and non-employer allocations and specified column totals included in the schedules of collective pension amounts.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of DRS as of and for the year ended June 30, 2024, and our report thereon, dated October 24, 2024, expressed an unmodified opinion on those financial statements.

## Independent Auditors' Report (cont.)

### **Restriction on Use**

Our report is intended solely for the information and use of DRS management, DRS employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated October 24, 2024, on our consideration of DRS' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing and not to provide an opinion on the effectiveness of DRS' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering DRS' internal control over financial reporting and compliance.

<b>Total State of Washington — Special Funding</b>		<b>87.120000 %</b>
<b>Grand Total Employer and Nonemployer Allocations</b>		<b>100.000000 %</b>

LEOFF Plan 1 allocation percentages reported in the Schedules of Employer and Nonemployer Allocations are based on the total historical employer contributions to LEOFF Plan 1 (1971-2000) and retirement benefit payments in fiscal year 2024. Historical data was obtained from a 2011 study the Office of the State Actuary (OSA) conducted.

Washington state contributed 87.12% of LEOFF Plan 1 employer contributions; all other employers contributed the remaining 12.88% of employer contributions.

The cumulative retirement benefit payments through fiscal year 2024 were used to determine the employer allocation amounts and percentages listed under All Other Employers.

LEOFF Plan 1 is fully funded, and no further employer contributions have been required since June 2000; see RCW 41.26.080. If the plan becomes underfunded, funding of the remaining liability will require new legislation. The allocation method chosen reflects the projected long-term contribution effort based on historical data.

### **SUBJECT: PEFI ACTUARIAL CERTIFICATION LETTER**

Dear Ms. Guerin:

At your request, we prepared the following information for inclusion in the *2024 Fiscal Year Participating Employer Financial Information* (PEFI):

- ❖ Schedules of Collective Pension Amounts, Fiscal Year 2024.
- ❖ Amortization Schedules and Pension Expense under Note 2.

The primary purpose of this information is to satisfy the actuarial reporting requirements of the Governmental Accounting and Standards Board (GASB) [Statement No. 68](#). Readers should not use this information for other purposes. Please replace this information with more recent information from next year's PEFI when available.

The Actuarial Certification Letter in the Department of Retirement Systems' *2024 Annual Comprehensive Financial Report* covers the required disclosures under [GASB 67](#). We relied on the same participant data, assumptions, and methods for the GASB 68 disclosures as we did for the GASB 67 disclosures. Please refer to that certification letter for additional detail on data, assumptions, and methods, as well as any results that are disclosed under both GASB 67 and 68. This certification letter is intended to cover any disclosures that are unique to GASB 68.

We prepared the required accounting disclosures in accordance with GASB 68 and believe the actuarial assumptions and methods we selected for this analysis are reasonable and appropriate for this purpose. We prepared all the financial reporting disclosures outlined in this letter in accordance with generally accepted actuarial principles and actuarial standards of practice as of the date of this letter.

## Notes to the Schedules

### Note 1: Plan Description

The Department of Retirement Systems (DRS) administers cost-sharing, multiple-employer retirement plans and single-employer retirement plans that cover eligible employees of the state and its local governments.

**This publication includes the following cost-sharing, multiple-employer retirement plans:**

#### **Public Employees' Retirement System (PERS)**

- Plan 1: Defined benefit
- Plan 2: Defined benefit
- Plan 3: Defined benefit/defined contribution

#### **School Employees' Retirement System (SERS)**

- Plan 2: Defined benefit
- Plan 3: Defined benefit/defined contribution

#### **Public Safety Employees' Retirement System (PSERS)**

- Plan 2: Defined benefit

#### **Teachers' Retirement System (TRS)**

- Plan 1: Defined benefit
- Plan 2: Defined benefit
- Plan 3: Defined benefit/defined contribution

#### **Law Enforcement Officers' and Fire Fighters' Retirement System (LEOFF)**

- Plan 1: Defined benefit
- Plan 2: Defined benefit

**This publication excludes these single-employer plans:**

#### **Washington State Patrol Retirement System (WSPRS)**

- Plan 1: Defined benefit
- Plan 2: Defined benefit

#### **Judicial Retirement System (JRS)**

- Defined benefit

#### **Judges' Retirement Fund (JRF)**

- Defined benefit

### Note 2: Plan Description

#### A. Allocation Method

Employer contribution transmittals DRS received and processed within the fiscal year ended June 30, 2024 are used as the basis for determining each employer's proportionate share of the collective pension amounts reported in the "Schedules of Employer and Nonemployer Allocations" for all plans except LEOFF Plan 1.

#### B. LEOFF Plan 1 Allocation Method

LEOFF Plan 1 allocation percentages reported in the "Schedules of Employer and Nonemployer Allocations" are based on the total historical employer contributions to LEOFF Plan 1 (1971-2000) and LEOFF Plan 1 retirement benefit payments during fiscal year 2024.

LEOFF Plan 1 is fully funded, and no further employer contributions have been required since June 2000; see RCW 41.26.080. If the plan becomes underfunded, funding of the remaining liability will require new legislation.

#### C. Special Funding

Special funding situations reported in the "Schedules of Employer and Nonemployer Allocations" consist of:

- LEOFF Plan 2 contributions from the state of Washington pursuant to RCW 41.26.725
- LEOFF Plan 1 allocation percentage for the state of Washington as described in Section B

## Notes to the Schedules (cont.)

### D. Plan 1 UAAL

Plan 1 UAAL reported in the "Schedules of Employer and Nonemployer Allocations" consist of:

- PERS Plan 1 employer-contribution portion of PERS Plans 2 and 3, SERS Plans 2 and 3, and PSERS Plan 2, which *RCW 41.45.060* requires fund the unfunded actuarially accrued liability
- TRS Plan 1 employer-contribution portion of TRS Plans 2 and 3, which *RCW 41.45.060*

requires fund the unfunded actuarially accrued liability

### E. Net Pension Liability

Components of the calculation of the net pension liability for participating employers and nonemployer contributing entities as of June 30, 2024, calculated in accordance with GASB Statement No. 67, are shown in the "Net Pension Liability" table below.

<b>Plan Fiduciary Net Position as a % of Total Pension Liability</b>	86.53%	99.27%	168.48%	109.27%

The Office of the State Actuary (OSA) calculated the total pension liability (TPL).

Each plan's fiduciary net position is reported in the Notes to the Financial Statements in DRS' separately published 2024 ACFR.

## Notes to the Schedules (cont.)

### F. Amortization Schedules

OSA calculated the amortization schedules of the deferred inflows and outflows recorded in the Schedules of Collective Pension Amounts.

<sup>1</sup> The recognition period for each plan is equal to the average of the expected remaining service lives of all employees provided with pensions through the pension plan, which OSA calculated as of the beginning of the measurement period. Starting in fiscal year 2017, OSA revised the average expected remaining service lives calculation used to recognize the changes in pension expense and no longer discounts future years of service back to the present day. This change was applied on a prospective basis.

<sup>1</sup> The recognition period for each plan is equal to the average of the expected remaining service lives of all employees provided with pensions through the pension plan, which OSA calculated as of the beginning of the measurement period. Starting in fiscal year 2017, OSA revised the average expected remaining service lives calculation used to recognize the changes in pension expense and no longer discounts future years of service back to the present day. This change was applied on a prospective basis.

## Notes to the Schedules (cont.)

Note 3: Reconciliation of DRS' Financial Statements and Employer Records to 'Schedules of Employer and Nonemployer Allocations' and 'Schedules of Collective Pension Amounts'

### A. Basis of Accounting

DRS' financial statements conform to generally accepted accounting principles (GAAP).

The retirement plans are accounted for in pension trust funds using the flow of economic-resources-measurement focus and the accrual basis of accounting. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions.

DRS financial statements include:

- Additions and deductions incurred from the administration of the pension fund

Actuarial valuations do not include these amounts. Employers should refer to the audited "Notes to the Financial Statements" located in the DRS ACFR when implementing GASB 68.

### B. Employer Contribution Exclusions

The employer contributions reported in DRS' "Statement of Changes in Fiduciary Net Position" included in the separately issued ACFR will not agree with the employer allocation totals in the "Schedules of Employer and Nonemployer Allocations" due to the following exclusions:

- Accruals prepared at the plan level
- Nonrecurring bills of individual employers
- Contributions for DRS employees

### C. Contribution Reconciliation

The tables below present a reconciliation summary of the employer and nonemployer contribution allocations to the contributions reported in DRS' "Statement of Changes in Fiduciary Net Position."

The employer and nonemployer contributions were used in determining each employer's proportionate share of the collective pension amounts for the fiscal year ended June 30, 2024.

### Note 4: Actuarial Methods and Assumptions

#### A. Actuarial Assumptions

The total pension liability (TPL) for each of the plans was determined using the most recent actuarial valuation completed in 2024 with a valuation date of June 30, 2023. The actuarial assumptions used in the valuation are summarized in the Actuarial Section of DRS' *Annual Comprehensive Financial Report* located on the DRS website. The actuarial assumptions used in the June 30, 2023 valuation were based on the results of the 2013-2018 Demographic Experience Study Report and the 2023 Economic Experience Study. Additional assumptions for subsequent events and law changes are current as of the 2023 Actuarial Valuation Report. <https://leg.wa.gov/osa/>

The TPL was calculated as of the valuation date and rolled forward to the measurement date of June 30, 2024. Plan liabilities were rolled forward from June 30, 2023, to June 30, 2024, reflecting each plan's normal cost (using the entry age cost method), assumed interest and actual benefit payments.

- **Inflation:** 2.75% total economic inflation; 3.25% salary inflation
- **Salary Increases:** In addition to the base 3.25% salary inflation assumption, salaries are also expected to grow by service-based salary increases.
- **Investment rate of return:** 7.00%

Mortality rates were developed using the Society of Actuaries' Pub.H-2010 mortality rates, which vary by member status (e.g., active, retiree, or survivor), as our base table. OSA applied age offsets for each system, as appropriate, to better tailor the mortality rates to the demographics of each plan. OSA applied the long-term MP-2017 generational improvement scale, also developed by the Society of Actuaries, to project mortality rates for every year after the 2010 base table. Under "generational" mortality, a member is assumed to receive additional mortality improvements in each future year, throughout their lifetime.

**Change in Assumptions and Methods:** Actuarial results that OSA provided within this publication reflect the following changes in assumptions and methods:

#### Assumption Changes:

- Assumptions did not change from the prior contribution rate setting June 30, 2022 Actuarial Valuation Report (AVR).

#### Method Changes:

- OSA adjusted their methods for calculating UAAL contribution rates in PERS 1 and TRS 1 to reflect the delay between the measurement date of calculated Plan 1 rates and when the rates are collected.
- OSA made an adjustment to their model to reflect past inflation experience when modeling future COLAs for current annuitants in all plans except PERS 1 and TRS 1.

## Notes to the Schedules (cont.)

### B. Discount Rate

The discount rate used to measure the total pension liability was 7.00% for all plans included in this publication. To determine that rate, an asset sufficiency test was completed to test whether each pension plan's fiduciary net position was sufficient to make all projected future benefit payments for current plan members.

Based on the assumptions described in OSA's certification letter within the DRS ACFR, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return of 7.00% was used to determine the total liability.

### C. Sensitivity of NPL

The table below presents the net pension liability of employers, calculated using the discount rate of 7.00% as well as what employers' net pension liability would be if it were calculated using a discount rate 1 percentage point lower (6.00%) or 1 percentage point higher (8.00%) than the current rate.

Discount Rate Sensitivity For the Fiscal Year Ended June 30, 2024			
Pension Trust	1% Decrease 6.00%	Current Discount Rate 7.00%	1% Increase 8.00%
PERS Plan 1	\$ 2,613,684,000	\$ 1,776,838,000	\$ 1,042,904,000

LEOFF Plan 1	\$ (2,502,838,000)	\$ (2,843,889,000)	\$ (3,141,303,000)
LEOFF Plan 2	\$ 1,240,719,000	\$ (1,872,745,000)	\$ (4,419,465,000)

### D. Long-Term Expected Rate of Return

OSA selected a 7.00% long-term expected rate of return on pension plan investments using a building-block method. In selecting this assumption, OSA reviewed the historical experience data, considered the historical conditions that produced past annual investment returns, and considered Capital Market Assumptions (CMAs) and simulated expected investment returns the WSIB provided.

The CMAs contain three pieces of information for each class of assets WSIB currently invests in:

- Expected annual return.
- Standard deviation of the annual return.
- Correlations between the annual returns of each asset class with every other asset class.

The WSIB uses the CMAs and their target asset allocation to simulate future investment returns at various future times.

### E. Estimated Rates of Return by Asset Class

The table below summarizes the best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2024.

The inflation component used to create the table is 2.50% and represents the WSIB's long-term estimate of broad economic inflation consistent with their 2023 CMAs.

Estimated Rates of Return For the Fiscal Year Ended June 30, 2024		
Asset Class	Target Allocation	% Long-Term Expected Real Rate of Return Arithmetic
Fixed Income	19.0 %	2.1 %
Tangible Assets	8.0 %	4.5 %
Real Estate	18.0 %	4.8 %
Global Equity	30.0 %	5.6 %
Private Equity	25.0 %	8.6 %

### Note 5: Additional Information

Financial and pension plan information supporting the preparation of the "Schedules of Collective Pension Amounts" and "Schedules of Employer and Nonemployer Allocations" for the fiscal year ended June 30, 2024, is located in DRS' Annual Comprehensive Financial Report located on the DRS webpage, [www.drs.wa.gov](http://www.drs.wa.gov)

Supporting actuarial information for the implementation of GASB 67 and GASB 68 is included in Note 4 of this document.

Additional actuarial and pension plan information is included in the DRS 2024 ACFR including descriptions of actuarial data, assumptions, methods and plan provisions relied on for the preparation of GASB 67 and GASB 68. Additional details regarding this information are included in OSA's 2023 Actuarial Valuation Report, [leg.wa.gov/osa](http://leg.wa.gov/osa).
